

Job Title: Deam, Campbellsville School of Chiropractic
Employer: Campbellsville University
Job Description: Campbellsville University's School of Chiropractic seeks a full-time creative and innovative educator who will contribute to a team, providing leadership and instruction for Doctoral students. The successful candidate will work closely with the Dean of Education and faculty colleagues to deliver stage-appropriate education in a series of Diagnostic Imaging courses designed to integrate with courses taught in previous, concurrent, and, subsequent semesters within the 10-semester curriculum. The ideal candidate will possess experience in teaching and interpretation of conventional radiographic along with advanced imaging to include MRI, CT and Diagnostic MSK Ultrasound, at a practitioner level. The 15-week courses are taught three times a year over a 12-month period. It carries a commitment to three important functions: instruction, scholarship, and outreach, as well as professional and university service.
